Template for Short Biometric Analyses - use a meaningful title/subtitle

Author name/email

`r format(Sys.time(), '%Y-%m-%d')`

Recipient(s)

"'{r setup, include=FALSE}

"'

Background

Motivation and objective for the analysis.

"'{r data, include=FALSE}

Bring in the data here. Provide a description of the data and where it came from.

"'

Methods

Results

"'{r analysis, echo=FALSE}

Model or analysis code here. echo=FALSE will print out results.

"'

Recommendation/Discussion

What is the recommended outcome from this analysis? What are the caveats? What further steps could be taken to improve this analysis?

R Session Info

```{r sess_info, echo=FALSE}
sessionInfo()
```

Appendix

Are there any additional files (data, code, etc.) that this analysis is dependent on?
